Jakarta, Indonesia

As a graduate of diploma III in informatics technology and a front-end web developer, I have a strong desire to create beautiful, simple, and user-friendly websites. With more than a year of experience
I have developed a strong understanding of HTML, CSS, JavaScript, and frameworks like Bootstrap and TailwindCSS, and attending the Full-Stack Web Developer Bootcamp program came in handy to deepen my skills as a web developer.

Work Experience

PT. Data Sinergitama Jaya (Elitery) - Jakarta, Indonesia   Jan, 2022 - Aug 2023
DevOps Engineer

- Solved the problem of not being able to back up data using Acronis to improve the security of company data.
- Solved the problem of unable to recover lost data, using Acronis to restore important data.
- Worked on setting up the Acronis agent so that it could be used to schedule backups of important corporate data on the main server.
- Moved critical enterprise data server data locally using Acronis, a VMware application to prevent corporate data from being lost.
- Made cloud servers for customers using applications such as GCP, AWS to improve security and equality in managing data.
- Resolved the Acronis backup process's malfunction by employing a subscription service to provide assistance as soon as feasible.

PT. Data Sinergitama Jaya (Elitery) - Jakarta, Indonesia   Jan, 2021 - Jan, 2022
IT Operation

- Resolved issue where users were unable to print data from user shares in Azure apps; customers were able to print data by utilizing dedicated users.
- Monitored user traffic in Azure applications, go to the monitor menu so you can monitor user traffic in real-time.
- Created a new customer in the Azure application, select the Customers option to allow new users to use the Azure application.

Politeknik LP3I Jakarta - Jakarta, Indonesia   Jan, 2017 - Feb, 2018
IT Staff

- Created an attendance system for lecturers and employees utilizing HTML, CSS, PHP, JavaScript, and MySQL to facilitate the finance department's salary computation.
- Created network configurations at LP3I Pondok Gede Campus with a Mikrotik RB1100 AHX2 to divide IP addresses for staff, instructors, and students.
- Installed the teaching requirements application utilizing the original program to protect student data from viruses.
